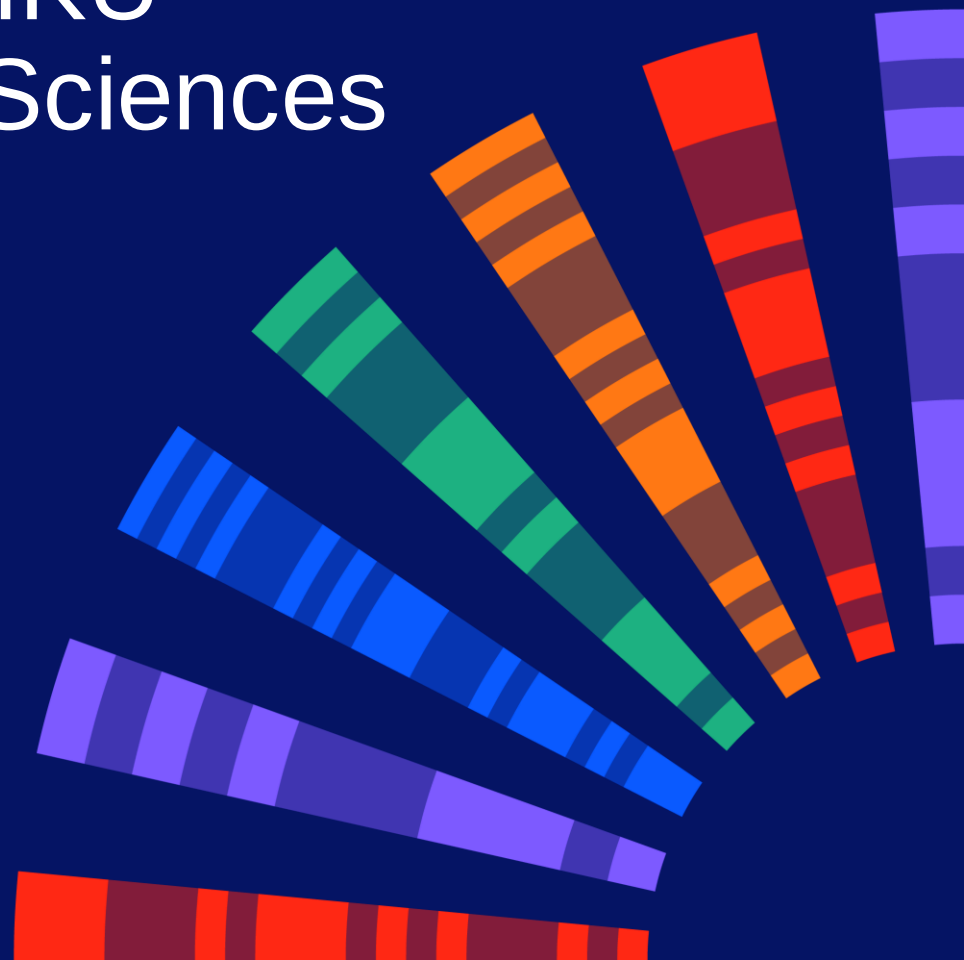
Admission Talk for HKU Statistical Decision Sciences

JUPAS Programme Code: 6779

26 October 2024



SCHOOL OF COMPUTING & DATA SCIENCE
The University of Hong Kong

About School of Computing & Data Science (CDS)

Empowering Changemakers of the Future

- Newly established school at The University of Hong Kong
- Encompasses the Department of Computer Science and the Department of Statistics and Actuarial Science
- Aims to foster innovation, collaboration, and excellence in the vital fields of
  - Computing
  - Statistical Sciences
  - Data Science
  - Artificial Intelligence

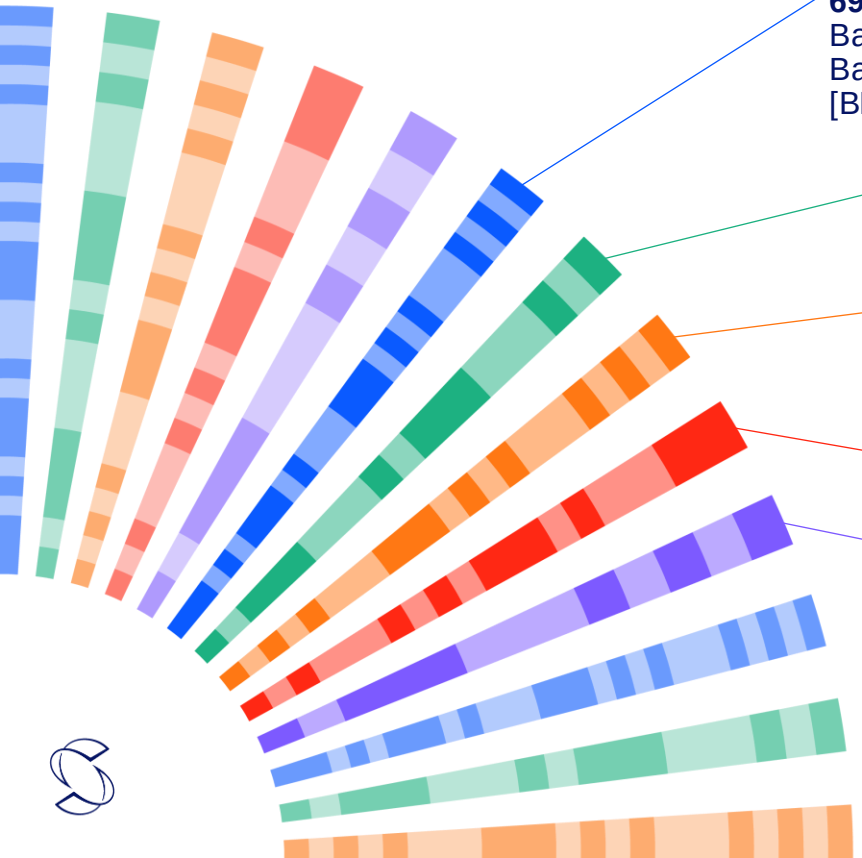
UG Programmes Offered by the School



6999 Computing and Data Science
Bachelor of Engineering in Computer Science [BEng(CompSc)]
Bachelor of Engineering in Artificial Intelligence and Data Science [BEng(AI&DataSc)]

6224 Bachelor of Arts and Sciences in Applied Artificial Intelligence [BASc(AppliedAI)]

6779 Statistical Decision Sciences
Bachelor of Science in Decision Analytics [BSc(DA)]
Bachelor of Science in Risk Management [BSc(RM)]
Bachelor of Science in Statistics [BSc(ST)]

6248 Bachelor of Arts and Sciences in Financial Technology [BASc(FinTech)]

6729 Bachelor of Science in Actuarial Science [BSc(ActuarSc)]

6779: Statistical Decision Sciences 統計決策科學

- **Decision Analytics**
  - Data science
  - Machine learning

  } Computation-oriented

- **Risk Management**
  - Financial modelling
  - Risk analysis

  } Financial risk-oriented

- **Statistics**
  - Applied mathematics
  - Methodology

  } General study, applicable to all quantitative areas

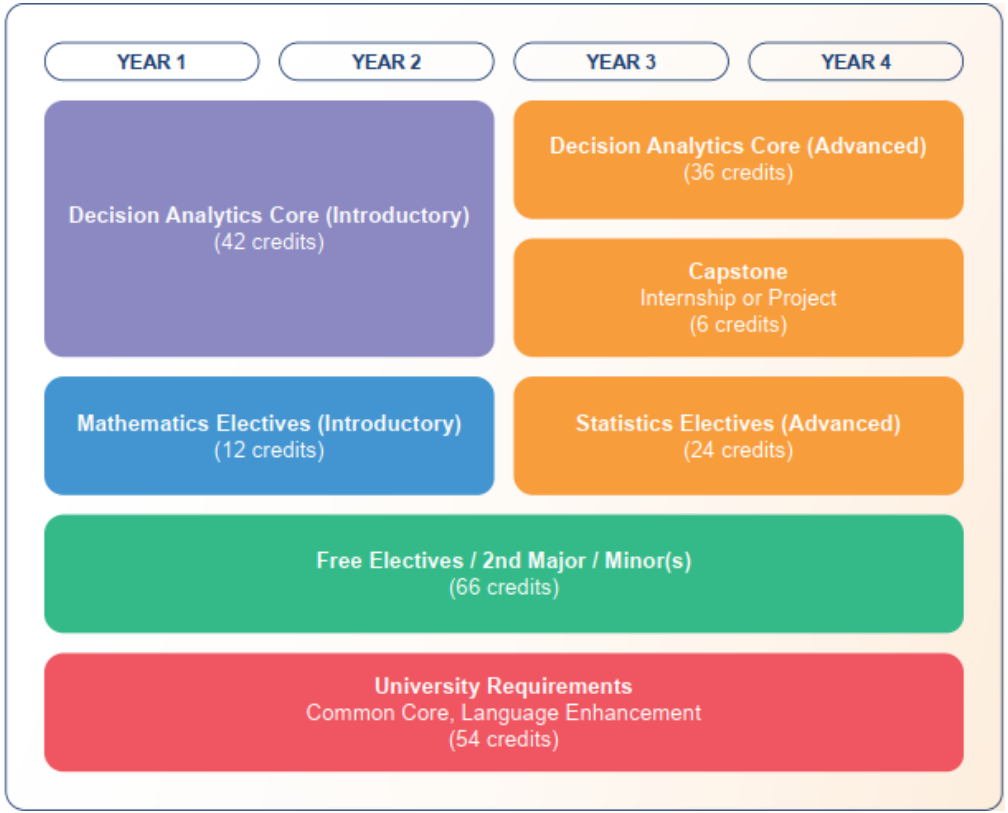
Bachelor of Science in Decision Analytics – BSc(DA)

- Core courses emphasise the fundamental concepts and methodologies of DA:
  - statistical analysis, machine learning, data visualisation, data structuring, …
- Elective courses focus on diverse and applied techniques of decision analytics in multidisciplinary fields.



Bachelor of Science in Decision Analytics – BSc(DA)

Required courses (120 credits)

1. Introductory level courses (54 credits)

Disciplinary Core Courses (42 credits)

COMP1117	Computer programming (6)
COMP2113	Programming technologies (6)
COMP2118	Data structures and algorithms essentials (6)
MATH1013	University mathematics II (6)
STAT1600	Statistics: ideas and concepts
STAT2601	Probability and statistics I (6)
STAT2602	Probability and statistics II (6)

Disciplinary Elective Courses (12 credits)

Select either List A or List B:

List A (for general study)

MATH2012	Fundamental concepts of mathematics (6)
MATH2014	Multivariable calculus and linear algebra (6)

List B (for advanced study)

MATH2101	Linear algebra I (6)
MATH2211	Multivariable calculus (6)

2. Advanced level courses (60 credits)

Disciplinary Core Courses (36 credits)

MATH3904	Introduction to optimization (6)
STAT3600	Linear statistical analysis (6)
STAT3612	Statistical machine learning (6)
STAT4609	Big data analytics (6)
STAT4610	Bayesian learning (6)
STAT4611	High-dimensional statistical learning (6)

Disciplinary Electives (24 credits)

At least 24 credits selected from the following courses:

COMP3251	Algorithm design (6)
COMP3252	Algorithm design and analysis (6)
COMP3278	Introduction to database management systems (6)
COMP3407	Scientific computing (6)
STAT3620	Modern nonparametric statistics (6)
STAT3621	Statistical data analysis (6)
STAT3622	Data visualization (6)
STAT4011	Natural language processing (6)
STAT4023	Medical image analysis (6)
STAT4601	Time-series analysis (6)
STAT4602	Multivariate data analysis (6)
STAT4612	Interpretable machine learning (6)
STAT4613	Causal inference (6)
STAT7609	Research methods in statistics (6)

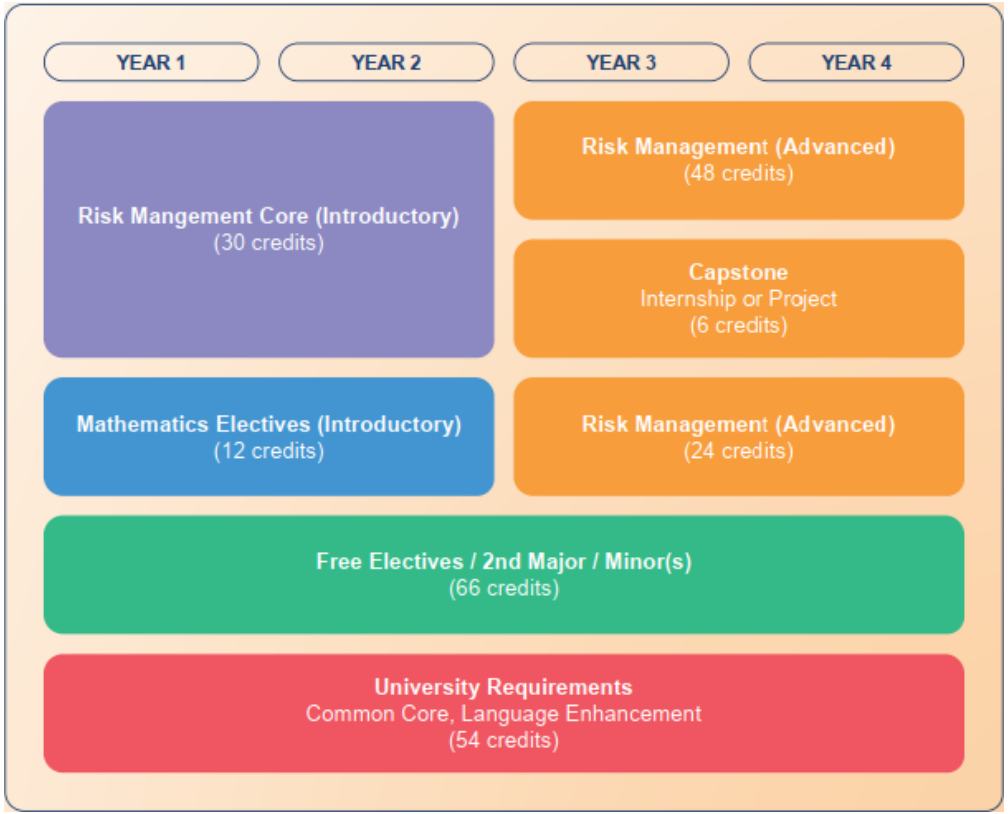
3. Capstone requirement (6 credits)

At least 6 credits selected from the following courses:

STAT3799	Directed studies in statistics (6)
STAT4710	Capstone experience for statistics undergraduates (6)
STAT4766	Statistics internship (6)
STAT4799	Statistics project (12)

Bachelor of Science in Risk Management – BSc(RM)

- Core courses emphasise fundamental concepts and nature of risk assessment, risk management and governance from different standpoints
- Elective courses provide either training in specific disciplines or an extension of knowledge, aiming to give students more modelling, technical and analytical skills in risk management



Bachelor of Science in Risk Management – BSc(RM)

Required courses (120 credits)

1. Introductory level courses (42 credits)

Disciplinary Core Courses (30 credits)

COMP1117	Computer programming (6)
MATH1013	University mathematics II (6)
STAT1600	Statistics: ideas and concepts (6)
STAT2601	Probability and statistics I (6)
STAT2602	Probability and statistics II (6)

Disciplinary Elective Courses (12 credits)

Select either List A or List B:

List A (for general study)

MATH2012	Fundamental concepts of mathematics (6)
MATH2014	Multivariable calculus and linear algebra (6)

List B (for advanced study)

MATH2101	Linear algebra I (6)
MATH2211	Multivariable calculus (6)

2. Advanced level courses (72 credits)

Disciplinary Core Courses (48 credits)

STAT3600	Linear statistical analysis (6)
STAT3609	The statistics of investment risk (6)
STAT3615	Practical mathematics for investment (6)
STAT3618	Derivatives and risk management (6)
STAT4601	Time-series analysis (6)
STAT4607	Credit risk analysis (6)
STAT4608	Market risk analysis (6)
STAT4610	Bayesian learning (6)

Disciplinary Electives (24 credits)

At least 24 credits selected from the following courses:

STAT3602	Statistical inference (6)
STAT3603	Stochastic processes (6)
STAT3610	Risk management and insurance (6)
STAT3612	Statistical machine learning (6)
STAT3655	Survival analysis (6)
STAT3910	Financial economics I (6)
STAT3911	Financial economics II (6)
STAT4603	Current topics in risk management (6)
STAT4606	Risk management and Basel Accords in banking and finance (6)
STAT4614	Quantitative risk management (6)
STAT7609	Research methods in statistics (6)
STAT7610	Advanced probability (6)

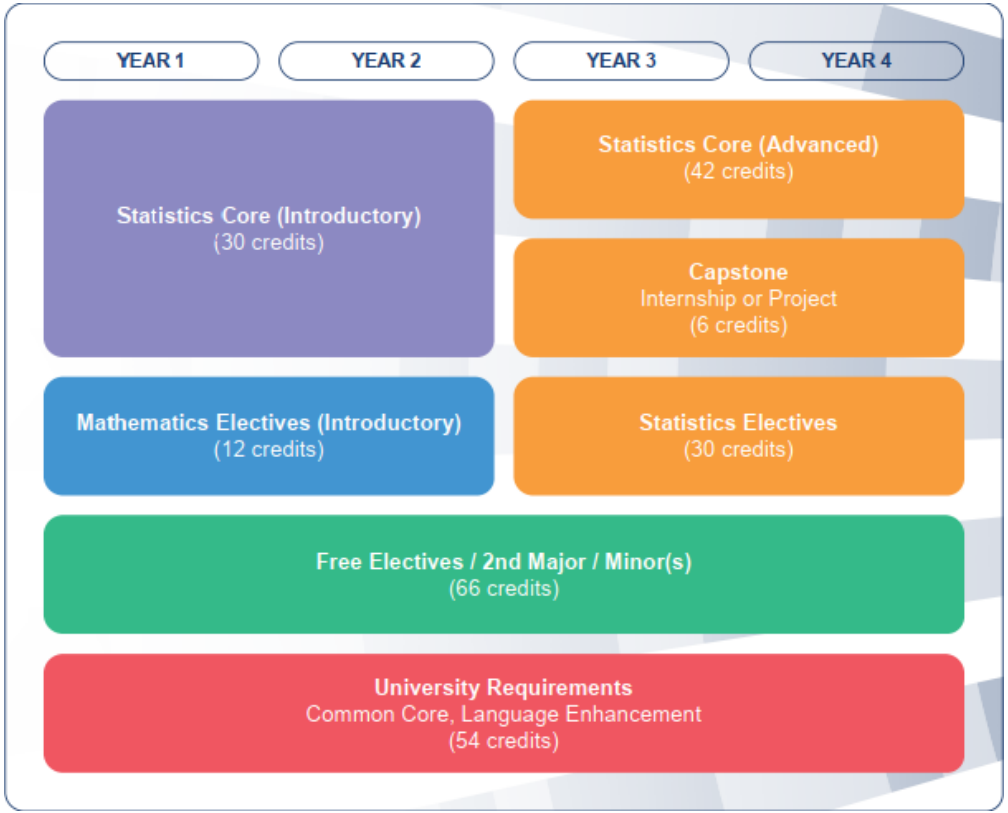
3. Capstone requirement (6 credits)

At least 6 credits selected from the following courses:

STAT3799	Directed studies in statistics (6)
STAT4710	Capstone experience for statistics undergraduates (6)
STAT4766	Statistics internship (6)
STAT4799	Statistics project (12)

Bachelor of Science in Statistics – BSc(ST)

- First build up a solid mathematical foundation in junior years of study, followed by rigorous training in statistical knowledge and skills in both theorical and practical aspects
- A diversity of advanced elective courses to further study specific branches of statistics, such as statistical inference, probability modelling, stochastic processes, survey sampling methods, survival analysis, time-series modelling and Bayesian learning



Bachelor of Science in Statistics – BSc(ST)

Required courses (120 credits)

1. Introductory level courses (42 credits)

Disciplinary Core Courses (30 credits)

COMP1117	Computer programming (6)
MATH1013	University mathematics II (6)
STAT1600	Statistics: ideas and concepts (6)
STAT2601	Probability and statistics I (6)
STAT2602	Probability and statistics II (6)

Disciplinary Elective Courses (12 credits)

Select either List A or List B:

List A (for general study)

MATH2012	Fundamental concepts of mathematics (6)
MATH2014	Multivariable calculus and linear algebra (6)

List B (for advanced study)

MATH2101	Linear algebra I (6)
MATH2211	Multivariable calculus (6)

2. Advanced level courses (72 credits)

Disciplinary Core Courses (42 credits)

STAT3600	Linear statistical analysis (6)
STAT3602	Statistical inference (6)
STAT3603	Stochastic processes (6)
STAT3620	Modern nonparametric statistics (6)
STAT3621	Statistical data analysis (6)
STAT4602	Multivariate data analysis (6)
STAT4610	Bayesian learning (6)

Disciplinary Electives (30 credits)

At least 30 credits from List C and List D, among which at least 6 credits from List C, and at least 12 credits from List D:

List C (mainstream statistical topics)

STAT3612	Statistical machine learning (6)
STAT3655	Survival analysis (6)
STAT4601	Time-series analysis (6)

List D (statistical applications and other advanced topics)

STAT3021	Modern biostatistics (6)
STAT3604	Design and analysis of experiments (6)
STAT3606	Business logistics (6)
STAT3607	Statistics in clinical medicine and bio-medical research (6)
STAT3608	Statistical genetics (6)
STAT3613	Marketing analytics (6)
STAT3617	Sample survey methods (6)
STAT4611	High-dimensional statistical learning (6)
STAT4613	Causal inference (6)
STAT7609	Research methods in statistics (6)
STAT7610	Advanced probability (6)

3. Capstone requirement (6 credits)

At least 6 credits selected from the following courses:

STAT3799	Directed studies in statistics (6)
STAT4710	Capstone experience for statistics undergraduates (6)
STAT4766	Statistics internship (6)
STAT4799	Statistics project (12)

Second Major (or Minor)

https://aas.hku.hk/list-of-major/

List of Majors by Subjects

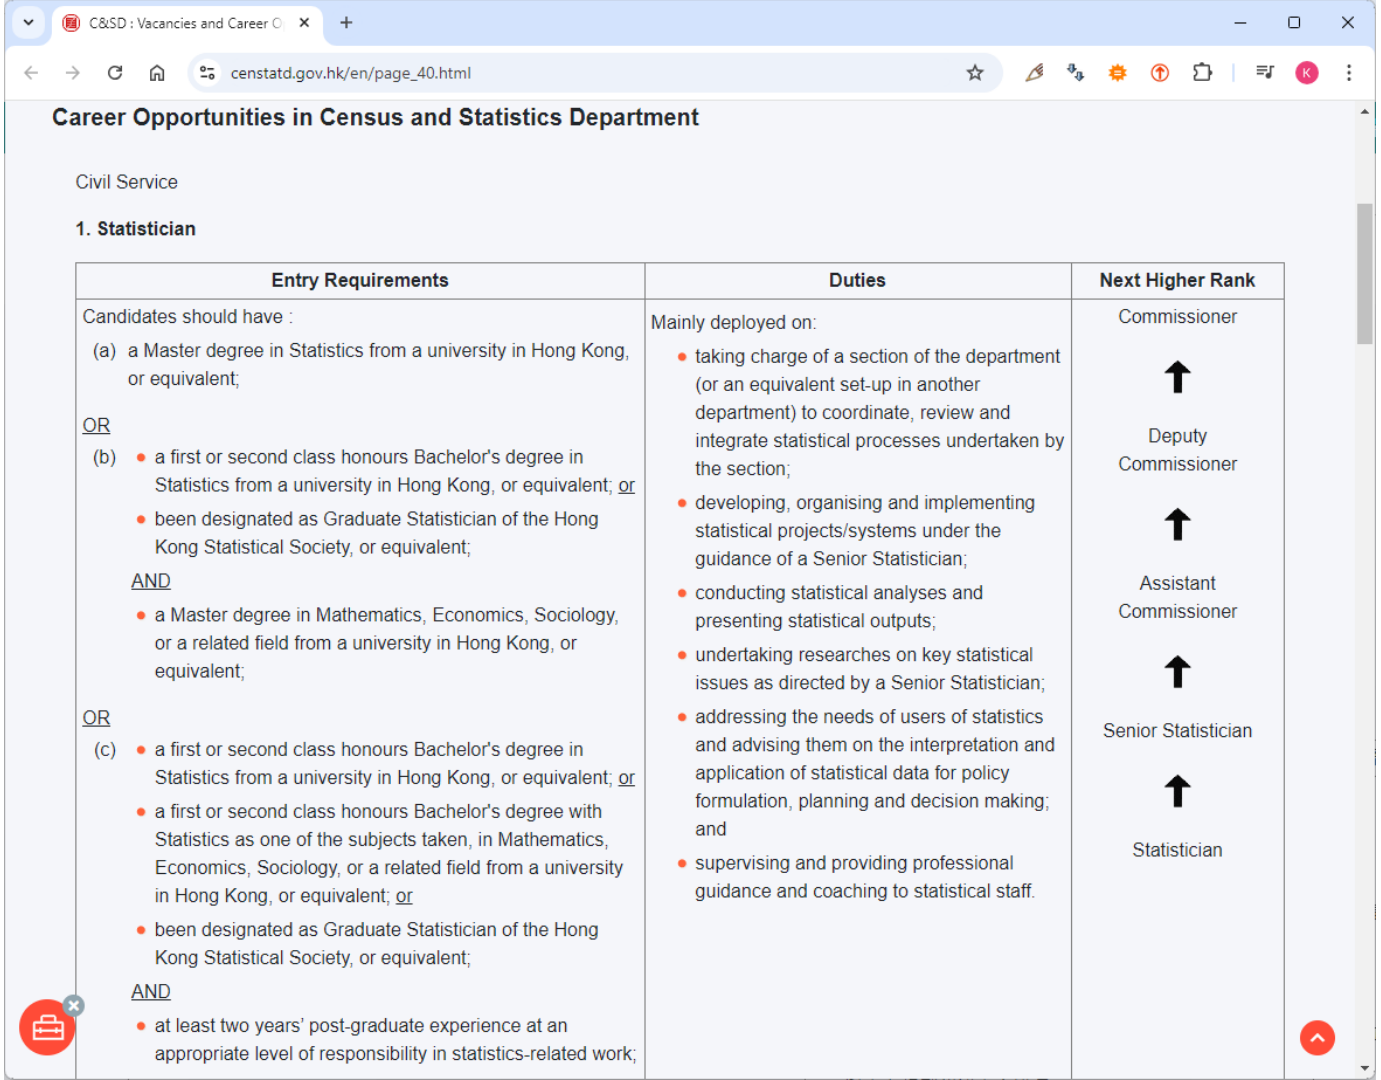
- American Studies (only applicable to students admitted in 2023-24 or before)
- Architectural Studies
- Art History (applicable for students admitted in 2021-22 and thereafter) or Fine Arts (only applicable for students admitted in 2020-21 and before)
- Asset Management and Private Banking (Selection process required) (For students of 2017-18 intake and onwards)
- Biochemistry
- Bioinformatics
- Biological Sciences
- Biological Sciences (Intensive)
- Biomedical Engineering [Last offered in 2020-21 intake]
- Chemistry
- Chemistry (Intensive)
- China Studies (Arts stream) (only applicable to students admitted in 2023-24 or before)
- China Studies (Social Sciences stream)
- Chinese History and Culture
- Chinese Language and Literature
- Cognitive Science
- Comparative Literature
- Computer Science
- Counselling
- Criminology
- Decision Analytics
- Earth System Science
- Ecology & Biodiversity
- Ecology & Biodiversity (Intensive)
- Economics
- Energy Engineering
- English Studies
- Entrepreneurship, Design and Innovation (Selection process required) (For students of 2019-20 intake and onwards)
- Environmental Engineering
- Environmental Science
- European Studies (only applicable to students admitted in 2023-24 or before)
- Finance
- Food & Nutritional Science
- French (major is only applicable to students admitted in 2023-24 or before)
- Gender Studies
- General Linguistics
- Geography
- Geology
- Geology (Intensive)
- German (major is only applicable to students admitted in 2023-24 or before)
- Global and Area Studies (only applicable to students admitted in 2023-24 and thereafter):
- Global Creative Industries
- Healthcare Engineering [For students of 2021-22 intake and onwards]
- History
- Hong Kong Studies
- Human Resource Management
- Information Systems and Analytics (For students of 2020-2021 intake and onwards)
- Italian (major is only applicable to students admitted in 2023-24 or before)
- Japanese Studies
- Korean Studies
- Language and Communication (only applicable for students admitted in 2020-21 and before)
- Marketing
- Materials Engineering
- Mathematics
- Mathematics (Intensive)
- Media & Cultural Studies
- Molecular Biology & Biotechnology
- Molecular Biology & Biotechnology (Intensive)
- Music
- Neuroscience
- Philosophy
- Physics
- Physics (Intensive)
- Politics & Public Administration
- Psychology
- Quantitative Finance (Selection process required)
- Risk Management
- Social Policy and Social Development
- Sociology
- Spanish (major is only applicable to students admitted in 2023-24 or before)
- Statistics
- Systems Analytics
- Translation
- Urban Governance

Professional Recognition

Graduate Statistician (GradStat) 學位統計師 and Quality Mark of Royal Statistical Society (RSS)

- Upon completion of a bachelor degree programme at HKU with a major in either Decision Analytics*, Risk Management*, or Statistics, and application to RSS via the standard route, graduates are qualified to become a Graduate Statistician (GradStat) designated by RSS.
- In addition, the RSS has awarded individual HKU courses with the RSS Quality Mark, a recognition that these courses teach good statistical literacy. Students who have passed these courses are deemed to have met the academic requirements of the RSS Data Analyst award.

* Subject to confirmation



Career Opportunities in Census and Statistics Department

Civil Service

1. Statistician

Entry Requirements	Duties	Next Higher Rank
Candidates should have : (a) a Master degree in Statistics from a university in Hong Kong, or equivalent; OR (b) • a first or second class honours Bachelor's degree in Statistics from a university in Hong Kong, or equivalent; or • been designated as Graduate Statistician of the Hong Kong Statistical Society, or equivalent; AND • a Master degree in Mathematics, Economics, Sociology, or a related field from a university in Hong Kong, or equivalent; OR (c) • a first or second class honours Bachelor's degree in Statistics from a university in Hong Kong, or equivalent; or • a first or second class honours Bachelor's degree with Statistics as one of the subjects taken, in Mathematics, Economics, Sociology, or a related field from a university in Hong Kong, or equivalent; or • been designated as Graduate Statistician of the Hong Kong Statistical Society, or equivalent; AND • at least two years' post-graduate experience at an appropriate level of responsibility in statistics-related work;	Mainly deployed on: • taking charge of a section of the department (or an equivalent set-up in another department) to coordinate, review and integrate statistical processes undertaken by the section; • developing, organising and implementing statistical projects/systems under the guidance of a Senior Statistician; • conducting statistical analyses and presenting statistical outputs; • undertaking researches on key statistical issues as directed by a Senior Statistician; • addressing the needs of users of statistics and advising them on the interpretation and application of statistical data for policy formulation, planning and decision making; and • supervising and providing professional guidance and coaching to statistical staff. YU Yau Him Timothy

2012 BSc graduate (major in Risk Management)

Timothy is the cofounder of Snapask, a mobile application which has connected more than two million users with 250,000 educators across different countries, and has also amassed over $20 million in funding along the way. The success of Snapask has earned Timothy a place in Forbes Asia's inaugural 30 under 30 list in 2016. Read more...

KWOK Wing Ho (Alex) & CHAN Chi Kin (Alan)

2011 & 2014 BSc graduate (Major in Risk Management)

"Both of us graduated from HKU with a major in Risk Management in 2011 and 2014, respectively. After graduation, I worked in multiple well known financial institutions and hedge funds. Working as a risk developer, I gain insights into the specific needs and challenges faced by traders and hedge fund managers alike. Read more...

Scholarships

Dr Patrick S C Poon Scholarship in Statistics

- Four scholarships in support of outstanding undergraduates who wish to pursue studies in Decision Analytics, Risk Management or Statistics
- Awarded annually on the basis of academic merit to final-year candidates pursuing a first major in Decision Analytics, Risk Management or Statistics
- Each scholarship is valued at HK$50,000

Dr Patrick S C Poon
Honorary University
Fellow of HKU

Ho Kam Chiu Lo Lai Ching Memorial Scholarship
何錦照盧麗貞紀念獎學金

- Three scholarships shall be awarded annually to outstanding students in the Bachelor of Science in Decision Analytics/Risk Management/Statistics on the basis of academic merit
- Support students at the Department of Statistics and Actuarial Science to engage in overseas enrichment programmes or exchange studies
- Each scholarship is valued at HK$20,000

Saw Prize in Statistics

- One prize of HK$8,000 shall be awarded annually to a final-year Bachelor of Science student whose first major is Decision Analytics, Risk Management or Statistics, and who has obtained First Class Honours and the highest average marks in the papers taken for Statistics courses.

Professor Saw Swee Hock, founding Professor of Statistics of HKU from 1969 to 1971

Saw Swee Hock Statistics Scholarship

- In recognition of the academic achievement of BSc graduates whose first majors are in the Department of Statistics and Actuarial Science.
- Two awards of HK$5,000 each shall be awarded annually on the basis of academic merit.

Statistics and Actuarial Science (SAAS) Scholarships

- Twenty-eight scholarships, each worth between HK$4,000 and HK$20,000, are made available each academic year by the Department of Statistics and Actuarial Science.
- The Department awards these scholarships annually on the basis of academic merit to outstanding students in different years of study who are pursuing a BSc degree in Actuarial Science or a first major in Decision Analytics, Risk Management or Statistics.

YF Life Scholarship in Actuarial Science and Risk Management

- With an objective of nurturing talents for the insurance industry
- Five scholarships, each of the value of HK$15,000, shall be awarded annually to outstanding undergraduate students in the Bachelor of Science in Actuarial Science or Bachelor of Science in Risk Management degrees on the basis of academic merit and performance

Career Advising Programme (CAP)

- Tailored consultation on CV and cover letter writing
- One-to-one or group consultation on interview skills, e.g. mock interview
- Tailored modules of Professional Preparation Programme (PPP)
  - Case Analysis & Presentation
  - Choosing between Job Offers
- Corporate Mentorship Programme (CMP)
- Career talks
- Company visits
- Alumni sharing
- Career Fair

Corporate Mentorship Programme

The Department's Corporate Mentorship Programme (CMP), has been implemented as scheduled during the pandemic, given that it is much valued by both students and companies taking part in it. We are pleased to announce that there are 17 companies taking part in the Programme in 2020-22. Through CMP, students could gain non-classroom learning experiences which are useful for job seeking and career preparation.

Purposes of the Programme

- Guide and empower students to see a possible future beyond what they see in themselves
- Help students step out of their comfort zone to rise above their impossibilities
- Inspire students through enlightenment from the practitioner of workplace attitude and career progression etc

Features of the Programme

- Actuaries or line managers of the companies will act as mentors to provide enormous guidance and advice to student-mentees on topics such as career development, professional examinations requirements, industry outlook, job opportunities, work attitude or adjustment from University to workplace etc. Students will be inspired of when and how to start their career.
- The CMP begins with an on-site visit where students will meet their mentors apart from getting a general understanding of the company's business operation.
- It provides students with a chance to meet more practising professionals through mentoring meetings. The relationship established will enlarge the social network of students.
- A platform for students to get early internship offer if their performance is impressive such as taking initiative in discussion or showing active engagement in each mentoring session or demonstrating eagerness to learn new things.

Corporate Mentorship Programme

Big thanks to the following companies for their participation and dedication to higher education. We believe that the Programme would benefit both students and the companies.
